F. Smith is treasurer. The other directors and A. E. Hyde and H. C. Lund, TIEWAUKEE BONDED. Michigan Parties to Expend \$10,000

Before June 1st. Reports of the sale of the Tiewaukee mine at Bingham for \$150,000 are without foundation in fact. The particulars were given out to the "News today by Col. M. Shaughnessy who is connected with W. S. McCornick in the ownership of the property. Mr. Shaughnessy has given a lease and bond on the property for \$100,000 to Detroit parties, who have pledged themselves to expend \$10,000 on the property before June 1st when the expires. It is quite probable that

the Michigan parties will incorporate a company to open up the property, which has heretofore yielded richly

above the water level. STRUCK \$30 ORE. A 12-foot Vein Exposed in the Mad

sen Group at Gold Mountain. C. J. Peterson of Springville, came up from the south today with news of an important strike in the Madsen Mining company's property at Gold Mountain. some time past the company, in which P. W. Madsen of this city is a large shareholder, has been running tunnel to the ledge. After pushing this received word today that the vein has been encountered and found to be

feet wide. Average assays of this width is said to show \$30 in gold and 16 ounces silver per ton. Mr. Petersen was feeling quite jubilant over the strike and he looks for it to be duplicated in two or three other veins which extend through the company's property.
The group lies near the Tribune group
which Mr. Caffey of Castle Gate recently bought for \$15,000. It is also said to close to the possessions of the Annie Laurie company.

The Week in Park City.

In its review of the week in Park City the Record says the ore from the Daly-West will now be taken direct from the mine and loaded on the cars under one contract. This contract was ecided upon at the last meeting of the directorate held on the 18th ult. Under the new contract Kopp Bros., to whom was awarded, will take the ore as peretofore and bring it out through the tunnel, the only addition being that the loading on the cars at this end is included, and the company relieved of this portion of the work. What addiand will not be mude public, but it is evidently entirely satisfactory to both to the deal. Scarcity of cars and the large tonnage that has been coming out has resulted in the accumulation of about 500 tons of ore now on the floor at the mouth of the tun-nel, but this will soon be taken care of put of the great property.

Let very important deal is now way, which, when completed, is all probability the immediate ment of another bonanza to add to the rapidly increasing list sers from this district. The propuestion is the W. H. Dodge & up of four claims lying next the Bill and Little Bell-groups. This homas Clawson, who is a one-owner in the ground, informed a proposition had been submitted in embracing an offer of \$10,000 interest, which is declined; then was raised to \$15,000, which he used to consider, at least for the.

Gains Were the Rule-Pronounced Strength in All the Metals-Bonds

New York, March 4 .- The tone of trading in stocks was quiet at the opening with the exception of some of the specialties. Gains were the rule, the principal steel stocks leading the adsmelting common dropped 2% and the preferred 21/2. The short interest in smelting stocks was brought up with a round turn, the common being marked up 1% above Saturday's close, and the preferred to a parity. There was also pronounced strength to all the metal stocks, which advanced I to 1½ with Amalgamated Copper lead-ing. Elsewhere there were also improvements, Prices of some stocks were shaded on realization, but a subsequent rally brought many stocks up to the best prices of the morning. Many specialties were bid up. Sugar fell al-many 2 points under Saturday's close. Consoleuous features were General Electric, People's Gas, National Salt, preferred, Brooklyn, Union Gas and the copper stocks, Bonds were moderately active and irregular.

DEATH OF ALEX HOEL. Colorado Editor Wants to Know About It-His Daughter Murdered.

M. M. Rathbum, editor of the "Chieftain," a paper published at Pueblo, Colorado, has written the county commissioners a letter, asking if one Alex Hoel died in Salt Lake, in October, 1900, or in the same month of 1899; and if so who was the undertaker who buried the remains. The writer also desires to know if Hoel left any property, and "would his death do anybody any finan-The letter then goes on to state that "a daughter of Alex Hoe was found murdered in Pueblo a few days ago, and there is absolutely no apparent motive for the deed," and the foregoing information is desired to see

not furnish a clue, or theory at least, as to why the girl was mur-Pauper Clerk James Sabine in looking over the county's pauper records dis-covered that Hael died at a hospital in this city, and was buried by Undertaker Evans, on October 1st, 1900. The cause of death was injuries received by the man while on his way here with a team from Vernal, Uintah county, Utah. He was buried under the auspices of the local lodge of Odd Fellows, in this city at the expense of the Vernal branch of that organization, of which the deceased was a member. So far as known Hoel left nothing of value in this vacinity. The Vernal lodge of the Odd Fellows, however, may know something of the man's history and property, if he has any. Clerk Cabine will so inform Mr.

BUSY SEATTLE.

Citizen There Tells of Its Growth and Aspirations.

Dr. G. W. Peterkin of Seattle, Washington, is a guest at the Kenyon. In speaking of Seattle, the doctor said today: "People generally seem to think that we Seattle folks have little to do than to ship goods and people to the Klondike. Our Klondike trade is very large indeed and in the last year or so has become decidedly less of a speculation but it can't be compared to our lumber interests and to the salmon fisheries. We have some of the finest and most extensive lumber interests in the world in Washington, and also have cheap transportation-water-in swift

The salmon industry is assum-ing greater proportions each year as now the product of the fishezes can now the product from the river, frozen, be taken direct from the river, frozen, shipped in refrigerator cars across the continent and disposed of as fresh Senttle is the center of the lumber and salmon industries in Washington, and is becoming a large shipping point for the Philippines as well as for the Klon-

TWENTY BODIES RECOVERED Remains of That Many Taken From Diamondville Mines.

[SPECIAL TO THE "NEWS."]

Kemmerer, Wyo., March 4.-Last night the rescuing party headed by Thomas Sneddon succeeded in getting beyond the sixty-second room in the sixth level and by hard and dangerous work they reached the bodies of the men and succeeded in bringing twenty of them up out of the mine. The bodies of Finlanders were found side by side in the entry opposite room No. 63. Six others at the face of the level were close together. Their bodies are in a good state of preservation and are being Mentiled by their friends.

identified by their friends.

The blacksmith shop at the mine has been turned into a temporary morgue and all the bodies still remain there. It is thought that one or two more may be discovered when the rooms at the back of the level will permit of a search being made. At present there is a great deal of black damp in some of the rooms. No work will be done until the mine is beyond all doubt clear of all

gasses. Superintendent Sneddon has done everything possible to hurry the work along and has effectively directed all movements that were made in the mine to recover the bodies. The smouldering fire will be taken up as fast as possible and it will only be the matter of a few days until the mine will be in work ing order again. The inquest will be held as soon as the coroner arrives from Evanston, Wyoming. He has been sent for and will reach here tonight.

LATE COUNTY BUSINESS.

County Attorney Christensen sub-mitted the name of James T. Smith, whom he has appointed as second as-sistant in his office. Referred to com-

mittee on control. A petition signed by George Taylor and a large number of other residents and taxpayers of this county, asking that the road through Parley's canyon be maintained and open to all public travel, including the driving through the canyon of loose live stock, was filed with the board. The petition recites that Parley's canyon road has been maintained as a public highway for the past fifty years, at great expense to the county, and petitioners now ask that the county prevent the city from interfering with legitimate travel over said road. The communication was referred to the committee on roads and

About 350 claims that have accrued against the county during February, including the monthly salaries, were al lowed. The appropriation amounted to about \$10,000, of which nearly one-half is for salaries.

Emoch Clark of Draper was granted a three month's free peddler's license. C. M. Hendrickson and a large numcommittee on roads and bridges.

The appointments of Calvin S. Buck-Evans as assistant were confirmed on

recommendation of the committee on control The above committe reported that the city's claim for \$290 for water rates. be disallowed, because the bill should have been acted upon last July, by the old board, and also because the county furnishes the city with free elevator service for its half of the joint building, and also lights for the city's side of the bunding, which the county board think doubly offsets the city's claim for

The committee on roads and bridges offered a resolution, instructing the clerk to notify the Rio Grande Western Railway company to comply with sections 436 and 1117 of the Revised Statutes, in restoring the crossing of its road on State street, between Twelfth and Thirteenth South streets, to its former condition, as near as possible within five days, and that road superof road district No. 2, be instructed to see that the railroad company repair the road and remove the obstructions it has placed at the point

Superintendent Whipple of the couninfirmary submitted her February which shows the following Inmates on the 1st of February, 94; ad. mitted during the month, 10; dled, 3 discharged, 5; number now in the insti-The report was adopted.

F. C. Straup, health officer at Bing-ham, reported that there were no small pox patients in the isolation hospital established at that point, and asked what he should do with the furniture, cooking utensils, etc. The matter was referred to the committee on pauper, with power to act. It also developed that there are only

cases of smallpox in the whole county at present. In district No. 4 Naval academy,

3 there is but one case, and in districts Nos. 1 and 2, there are not to exceed three cases. The commissioners feel to congratulate themselves because of the fact that they have been successful in checking the spread of the disease in

Two large and numerously signed petitions, signed by residents living along State street and Eleventh South streets, asking the board to grant the Rapid Transit company a franchise from State to Seventh East, on Elev-enth South street, were handed in to the board. These, together with the petitions for a franchise for both the street car companies were referred to the committee on roads and bridges. In looking up the matter Chairman Anderson said the original franchise to the Rapid Transit company gave it

own and past Calder's Park. The board adjourned for one week.

Affected Over His Mother's Death. [SPECIAL TO THE "NEWS."]

Ogden, March 4.-Lieut. Henry A. Pearson, of the United States navy, arrived in Ogden at 2 o'clock this afternoon, en route to Draper, where he goes to attend his mother's funeral which takes place on Wednesday, When seen at the depot by a "News" correspondent he was visibly affected and wept like a child over his mother's de-Recovering himself he talked quietly of the work he has been en-1899, when he was here on an extended furlough and on handsome sword by the people of Lieut. Pearson stated that after leav-

Lieut. Pearson received but one week's leave of absence. He has found, how-ever, that it will be impossible to get back to the coast for duty within that period as it requires four days of travel each way. He has accordingly wired the naval department at Washington for an additional week. He expects to

two other naval officers, both grown gray in the service of their country. One was Commander J. K. Cogswell, of the Portland Lighthouse who has been despatched to the Philippines to take charge of the station at Cavite. The other was commander R. D. Ingersoll who is on his way to Hongkong to take charge of the Bennington. formally instructor at the National

WEIRD TALE OF RESCUE FROM DEATH.

How Miss Dayly, Now at the Knutsford, Saved Her Maid from a Watery Grave in the Wreck of the Rio de Janeiro Off the Golden Gate.

One of the most peculiar coincidences | The scene of the wreck was so that has possibly happened to an average mortal outside of the pages of a yellow-backed novel is connected with a Miss Dayly, of Denver, who is at the present time stopping at the Knutsford. Miss Dayly was out riding this afternoon and accordingly a vertification of the weird adventure could not be obtained from her own lips. This is the story which was related to the "News" by a friend of the lady this afternoon; a portion of the adventure has already appeared in print in the San Francisco

It appears that Miss Dayly's maid left her employ some weeks ago and the lady was at a loss to get a lady's maid to replace her. In her dilema she wrote to her mother, who is at the pres-ent time spending a vacation in Honolulu, with the result that she wrote back to her daughter to the effect that she would send her her own maid by the Rio de Janeiro which was salling

On the morning of the wreck of that ill fated steamer off the Golden Gate Miss Dayly was breakfasting in the dining hall of the Palace hotel, San Francisco, when one of the attendants brought in the word that there was a had shipwreck down the bay. "Lets go and see it," said Mr. George Croker, who was one of the party. The suggestion met with immediate approba from all there with the result that firm which has a monthly pay roll of \$40,000, and is now trying to get the contract for one of the new \$3,600,000 naptha launch owned by Mr. Croker. Colorado.

eached as the floating spars and portable articles tosing around on the sea

Suddenly the colored attendant on the launch said, 'look there," and pointing to a black object floating upon the water added, "it is a woman.". The launch was steered in the direction of the object and the prediction of man proved to be correct. The woman wearing a life belt was found to be strapped to a light ladder. She was finally cut loose and tenderly lifted into the boat when all endeavored to re-vive her. While so engaged Miss Dayly was handed the gold watch belonging to the insensible woman. As she opened the timepiece she gav a little gasp and a startled cry, for right inside the case was pasted the photograph of Mrs. Dayly, her mother. hasty examination of the letters in the possession of the woman revealed one addressed to Miss Dayly, and proved the identity of the woman to be none other than the French maid that

ad been sent her by her mother from The woman was taken to San Francisco, where she was put to bed in the Palace hotel, and the next morning felt the worse for her experience Miss Dayly and her maid arrived in Salt Lake on Saturday night, both of hem considerably worn out by the exciting experiences of the past few days

The maid was sent on to Denver this morning, while Miss Dayly will remain

the privilege of constructing its line on Seventh East, from the city limits on

Mr.

pity the bill had ever been introduced but as it had, and in order to remove from judicial officers all possible charge of taint the bill ought to be passed. Mr. Harmon thought that the bill was a slur on the judges and should be on that account. Mr. Axton, the mover of the striking out of the enacting clause, had a clash with Mr. Van Horne. The former said that the bill was too petty amended, Mr. Van Horne, wh made the amendment to the effect that

legislators and county officers be included under the terms of the bill, turned wrathfully on Mr. Axton and said that he might be secretary of the Y. M. C. A., but that did not constitute him dictator of the House.

House bill No. 174, by Smith, relating to the manner of posting potions ing to the manner of posting notices in proceedings under the probate code, was passed unanimously, as was also Langton's bill No. 156, relating to letters of administration.

METRIC BILL KILLED.
